

## Interior Automotive with Fabricated ARPRO **Expanded Polypropylene Plank (EPP) Closed Cell Foam**

### MEETING INDUSTRY STANDARDS FOR:

GM // FCA // Daimler/Mercedes // BMW // Ford // Toyota // Nissan // Tesla // Honda  
// Hyundai/Kia // Volkswagen // + more

1.3# to 3.7# standard densities – **now easier to convert and fabricate!**

### MULTI-FUNCTIONAL VALUE:

- Lightweight and stiff
- Mechanical energy management
- Vibration isolation & dampening
- Thermal insulation
- Low friction (no squeak)
- Isotropic
- Less concavity when die-cutting
- UV and chemical resistance
- Dimensional Stability
- Meets flammability requirements
- Service temperature up to 100 deg C
- Low fogging / no VOC's, no odor
- Low compression set
- 100% recyclable

### APPLICATIONS:

- Load floor support blocks
- Carpet stiffeners and levelers
- Interior fit and finish
- Road noise barrier
- Headliner stand-off blocks
- EV Battery pads
- Stuffer pads (pillars, doors, trim, etc.)
- Cavity fillers
- NVH Solutions
